

## Online Training

## “The Project & the Platform SmartProtect: Smart IPM Techniques”

**Thursday 20 April 2023**  
**10:00 am – 11:30 am**  
*on Microsoft Teams*

The EU project SmartProtect aims to stimulate knowledge flow in the regional AKISs (Agriculture Knowledge and Innovation System) across the EU and connect these on the innovative potential of advanced methodologies for Integrated Pest Management (IPM) in vegetable production, integrating precision farming technologies and data analytics. The main objective of the training entitled “**The project & the Platform SmartProtect: Smart IPM techniques**” is to inform about the project, Platform SmartProtect and to present different Smart IPM techniques and the results of some case studies in the field.

This training will be the opportunity to discuss and exchange on the problems of the fruit and vegetable sector and to strengthen the collaboration between farmers, scientific researchers and the industry.

This free event addresses to producer organization, farmers, cooperatives, professional organizations, scientific communities, industries and other stakeholders related to the food sector.

### PROGRAMME

- 9:45 – 10:00 **Connection of the participants**
- 10:00 – 10:10 **Introduction**
- 10:10 – 10:30 **Presentation of SmartProtect project and the Platform**  
(Speaker – Sabien Pollet Inagro- Belgium)
- 10:30 – 10.45 **Insect monitoring technologies in Belgium – case study**  
(Prof. Bart Deketelaere or Yannis Kalfas – Leuven University, Belgium)
- 10:45 – 11:00 **UV technologies to control pests and diseases**  
(Jonathan de Mey – Inagro – Belgium)
- 11:00 – 11:15 **Mobile disorder detection**  
(Mikel Kaminiaris – Agenso, Greece)
- 11:15 – 11:30 **Question & answer session**
